## IONEER OF COUNTY DIES IN SAN FRANCISCO

John H. (better known as Harry) Grimmenstein, a pioneer resident of this county and one of the early constables of this township, passed away in San Francisco last Tuesday at the age of 83 years. Grimmenstein was among the first firemen of the town and always maintained an active interest in the local department. He attended the reunion of the exempt firemen held here a few months ago. His eldest son, John Jr., has followed his father's lead in this matter and is now a member of the fire department of San Francisco.

The deceased is survived by a widow, Mrs. Gertrude H. Grimmenstein and by three sons and a daughter, John, Frank, and Elmer Grimmenstein, and Mrs. W. H. Shayer. Albert and August Grimmenstein of this city are nephews. The funeral was held last Tuesday from the New Home funeral parlors in San Francisco.

## NEW APPOINTMENTS FOR LOCAL SCHOOLS

Five resignations by teachers in the local school were accepted this week by the board of trustees of the district. Miss Gertrude Frazier has resigned and will continue her studies at the University of California. Miss Hazel Wolverton, who has been principal of the Intermediate school, will leave for New York, where she will be married in October. Miss Edna Rowe leaves for Modesto, where she, too, will wed. Miss Mable Paul will teach a first grade in the Oakland school department and Miss Dorothy Jane Simonton is leaving for Idaho.

Appointments to fill the vacancies caused by these resignations have already been made by the board as follows: Miss Mable Corwin, who has been teaching at Woodlake, Miss Maud Stilleson, who has been teaching at Ceres, both local girls, and graduates of the San Jose Normal; Warren Natwick, a graduate of the Arcata Normal School, who has been teaching at Fortuna, Miss Schow of the University of California, and Paul C. Orr, a graduate of Olivia Fletcher of the San Jose State teaching at Firebaugh, Miss Bernice Teachers' College and of the University of California, who has been Stanford.

## Native Sons Mark Bear Flag Sites

The grand officers of the Native Sons of the Golden West, including Roy W. Cloud of this city who is grand historigrapher of the order, made a trip Sunday through the country made famous in the year 1846 by the Bear Flag revolt and subsequent events. The purpose of the party was to place markers upon spots of historical interest of that time, Sunday being the 80th anniversary of the raising of the Bear fag at Sonoma.

The grand officers were the guests of Santa Rosa parlor of the order and were given a grand welcome by that lodge. They first marked the graves of two men, members of the party which raised the Bear flag and who were killed by Mexican bandits in the melee which followed that eventful day.

The party then visited the plaza in Sonoma and marked ~~where the flag was raised~~, the old mission of Sonoma and the home of General Vallejo. Following this a banquet was served to the grand officers in the home of "Fighting" Bob Hooker. The party then visitel the home of William Elliott, where Freemont and his men were quartered following the raising of the flag at Sonoma.

The Californian order is conducting a continual campaign for the preservation and marking of points of historical interest in the state, and the motorist and the visitor will always have appreciation for the work such as this which adds interest to any country.

## Local Woman's Sister Dies

Sister Mary Camilla, formerly fifty years a devout member of the Dominican Order of Sisters, passed away at San Rafael last Tuesday. She was a native of New York, but spent the greater portion of her religious life in California. Sister Mary Camilla was a devout holy woman, who gave her life to teaching the young and giving them a moral training that aided them in charactering building. She was buried at the Dominican plot at Benicia on Thursday. She was the eldest of seven sisters. Another sister, Sister Gabriel, is also a member of the Dominican Order.

They are sisters of Mrs. D. R. Stafford of this city. Two of the Stafford girls are named after the nuns, Miss Camilla and Miss Gabriel Stafford.

Mr. and Mrs. Donald Williams and son, Edward, will leave Monday for Mrs. William's home at Fairfield, Maine, stopping at the Grand Canyon enroute. After several weeks in the east they will return through Canada, stopping at Lake Louise.

Ben Zimmerman will soon start to build a pretty home for Mr. and Mrs. Chas. Curran on their lot on Cedar street next to Mrs. Curran's parents.

## PIONEER BELMONT MAN PASSED AWAY SUNDAY

Funeral services were held Wednesday for Benjamin Franklin Yount, who passed away Sunday at his home in Belmont, following a long illness. Services were conducted by Rev. E. H. Molony of this city. and were attended by a large number of the friends of the deceased from Redwood City, where he was very well known. Interment was in Union cemetery.

The following tribute to the deceased was written by a neighbor and friend:

Mr. Benjamin Franklin Yount died Sunday night at his home in Belmont. He was ill only a few days with a cold, which turned into pneumonia. He leaves a devoted wife, two daughters, and four sons. The funeral took place from the home Wednesday and was attended by friends from all over the county.

"Frank" Yount was the last of the dozen pioneer ranchers and farmers of Belmont. At the age of eighteen he left his home at Cape Girardeau, Missouri, for California, arriving in this country in 1865, where he immediately engaged in farming at Halfmoon Bay.

In 1871 he married Mary Pullen, daughter of ex-Supervisor Pullen and grand-daughter of Christopher Bollinger, one of the earliest settlers in the county and a large land holder, owning part of the property now covered by the Spring Valley lakes. Mr. Yount farmed this land and the surrounding lands for many years.

He was a simple, frank man, without any high pretentions; a good kind husband and father; an obliging friend and neighbor, steadfast as an anchor. He lived life and understood the use of it.

His latchstring was always out. All who dropped in were welcome to share whatever the family had. The home was wide open with true California hospitality. No one was ever turned away from his door. He was the crack rifle shot of the county and his lands were the hunting grounds for all the young men and boys.

When a very young girl I went with my father to the Yount home, over the hills and far away, to my first party—all of Belmont, and farmers and families of the nieghborhood were there. I remember the long tables so covered with sandwiches, chicken, pies, pudding, cakes, that we had to stay to breakfast to finish them up; the dancing "Arkansas Traveler," [illegible] Reel led by Mr. and Mrs. Yount—such a handsome couple, so straight, so dashing. Oh, but those were the "days of old and the hearts of gold."

His death brought back to many the memories of the early days of the community, and the sorrowing friends, the wealth of flowers, all testified to the place "Frank" Yount had in the hearts of those who knew him best.

## ATHERTON MAN FOUND MURDERED

The finding of the body of a man which has been identified as Charles Woods of Atherton on the beach at Mussel Rock has set the police of this county and San Francisco on the outlook for possible murderers. The man's skull was crushed in according to reports from San Fracisco, which indicates that Woods had met with foul play. The further fact that only 4z cents was found with the body, whereas he was accustomed to carry large sums of money, has been taken as evidence that the reason fo rthe murder was robbery.

Woods is said to have been a wealthy man with a home in Atherton, but who has recently been living at the Bohemian club in San Francisco. He has a son and a wife in Palo Alto. He is reported to have been conducted a oil machinery busines under the name of Woods & Co. with offices in the Humboldt building in San Francisco.

## SCHOOL DAYS

FOR the twenty-seventh time in her history, Sequoia has sent a graduating class forth into the world to put into practice the knowledge which they have gained during their four years in high school. The stage full of young men and women last night brings forcibly to the mind of the older members of the alumni of the school and of other schools the great increase the last few years have brought in the number of children who attend high school. We remember very well a graduating class of this same Sequoia not so many years ago either, when twenty-three graduates received their diplomas. This was the largest class which had graduated, and there were at that time one hundred and four pupils in the school.

We remember when this class graduated that a page in the annual contained the pictures of the seven faculty members. In the school to day thirty-one men and women are employed on the faculty. These students graduate equipped with a schooling which is equal to that given by a college a generation ago, superior in many respects.

Every year sees a larger number of the graduating class from the grammar schools of the country entering the high schools, and a greater number from these schools going to college. In this way the average time of schooling has increased from a few months a hundred years ago to about the first year at high school. And the end is not yet.

After spending a whole life time in study and research a professor in Germany recently expressed the wish that he could have another life time before him to continue his work. Education is an infinite field, and those who see cause to worry in the ever-increasing average of school time, should console themselves with the thought that no matter how high the average of education, there is still room for the man who has the ambition to be above the average.

## FATHERS' DAY

SO tomorrow is Father's Day. Sure and he deserves it. We always thought that father's day was somewhere just after the first of each month, but they tell us that this is a different kind of a day. This is a day when dad comes in for a part of [illegible] year. And we know of plenty that's been neglected, too.

Wouldn't it be fine if we could just make every day father's day?—at least to the extent of doing our best to make him happy? Ever think how much work and how many grey hairs it has taken to put a boy or girl into the first, second or third year at high school? If this were all appreciated we don't think that we would hear so many girls whining around the house because they can only have three new dresses a month, while dad tries to make his trousers last an extra summer.

We are not in a position just now to change the laws of Nature, but if we were arranging the thing, we think we would let every human being start life as the parent of a family and finally grow into a child. By thus reversing the order of things we think that children would have a great deal more respect for their parents, having once been parents themselves.

As it is, however, we do not see any hope of this being accomplished, at least not in the immediate future, so we must content ourselves with writing editorials urging the boys and girls of Redwood City to treat dad right. Tomorrow's Fathers' Day; let's show dad we appreciate him.

## THE RODEO

NOW the roedo is to be introduced into the east to show the easterners who have not had the opportunity of visiting this state what California is like. We wonder if the mobs at Chicago will howl with glee, as we have seen similar mobs in California do, when after being roped by its hind feet, a poor, starved bag of bones of a steer is dragged around the field from the horn of a vaquero's saddle? Or will they applaud when a big husky bully is able by sheer strength to twist the neck of a half-starved old cow until the animal bellows with pain? Will the easterners enjoy the sight of a man chewing the ears of his horse to make him buck—chewing the animal's ears until he spits out mouths full of blood?

If the rodeo is the best that the west can introduce into the east, then this much boasted west is poor indeed. Relic of barbarism, and feeding the same fiendish passions which made the mobs at Rome gloat over the spectical of men and women being torn limb from limb by lions, or which tickle the fancy of a Mexican mob while several fiends torture a bull in the arena, the rodeo is a concoction of deviltry, which belies the much vaunted superiority of the human race over the beasts which kill only for food.

### SUPERVISORS CONTINUE MENLO INCORPORATION

Several hours of the meeting of the board of supervisors last Monday was occupied by the consideration of the proposed incorporation of Menlo Park, which was finally continued again, this time to July 11.

The meeting last Monday was featured by protests from owners of acreage property within the proposed lines of the city. These protests were presented by Attorney Lee T. Ross, who represented most of the protestants. The incorporationists were represented by Attorney Jas. T. O'Keefe of this city.

Ross asked that the lines of the proposed town be changed to exclude a large tract at the southeast corner, but O'Keefe refused to make this concession, and asked that the election be called. Supervisor MacBain, in whose township the proposed city lays, took no active part in the controversey, merely insisting that streets which form the boundary of the proposed town be included within the incorporation. It was finally decided to continue the matter and perhaps effect a compromise between the oposing attorneys.

### *Important Finds*

Three important archeological discoveries were the Rosetta stone, found in 1799, which bears a proclamation in hieroglyphics, Demotic and Greek; the excavations at Thebes, which opened up the Ramesside and neighboring periods, 1500-1000 B. C.; and the temple library at Nippur.

# KIWANIANS-GOLFERS WILL PLAY BASEBALL

The prowess of the Kiwanian nine and the all-star team of the Emerald Lake Golf Club will be demonstrated this afternoon on the field of the high school. The game will begin at 2:30 and promises to be an event unique in the history of that field where many hard fought battles have been decided.

There is much mystery still extant concerning the line-up of the teams, and a good many reports have been heard lately regarding the forthcoming event. It is stated on good authority, however, that the golfers will not, as rumored, use golf clubs, but will content themselves with the ordinary form of bat.

Both teams enter the contest from a long period of intensive coaching. The Kiwanians have been drilled by Sam Winklebleck, while Bill Curran has shown the golfers how to drive and slice with a bat. The game this afternoon will be umpired by Frank Griffin.

Although many surprises are proimsed by both sides in the way of a line-up, the following are those [illegible] Charlie Holt, Gray Minor Dick Harris, Geo. Collins, Joe Leonard, George Leonard, Dan Stafford, Dr. Francis Gruss, Bill Curran (captain) and Lester Prior.

Kiwanis—Henry Beeger, Bill Kelly Father Kennedy, Jim Hedge, Zepho Thorning, Bill Dusel, Clarence Argo, Geo. Kneese, Bob Brown, Dr. John Blood, Dr. Herbert Clattenburg, Charlie Dimmitt, Harry Groom, Ernest Lock.

Tickets are now on sale for the game at 25c each. All proceeds of the game will be devoted to charity.

### *Restore Ancient Windows*

In the year 1326 seven windows, the handiwork of the old masters, were presented to Tewkesbury abbey, in Gloucestershire, England, by Eleanor de Clare, wife of Hugh le Despenser. They have long been regarded as among the most treasured possessions of the abbey. Time naturally has had its way with the leadwork, and the glass itself has been damaged and disarranged, but happily not beyond repair. Steps are being taken to have them restored as nearly as possible to their original beauty. The abbey contains in all some really magnificent painted glass and monuments of considerable interest in every corner. The abbey itself had its origin in the Twelfth century.

# MOVIES

### SELWYN-POLLOCK STAGE HIT IS SCREENED BY PARAMOUNT

"The Crowded Hour," a Paramount screen version of the Channing Pollock-Edgar Selwyn stage play in which Jane Cowl scored the hit of her career on Broadway, comes to the Sequoia Theatre, tomorrow, Sunday, June 21, with Bebe Daniels in the star role.

Directed by E. Mason Hopper, who made "Janice Meredith," "The Crowded Hour" is a story rich in all the elements that one knows to appeal—a different sort of triangular love drama involving a selfish, man-wrecking woman, a young and handsome millionaire and the latter's wife.

A careful adaptation has been made by John Russell, author of the screen play, "Argentine Love,"—all the essential flavor of the original story has been preserved—and the result is a picture with exciting action, drama and suspense—not to mention comedy.

Kenneth Harlan, T. Roy Barnes and Helen Lee Worthing are among the more prominent names in the supporting cast. Others include Frank Morgan, Alice [illegible]

The scenes are laid in New York City and behind the lines in France during the World War.

### "EXCUSE ME" BOASTS CAST OF IMPORTANT PLAYERS

The cast of "Excuse Me," Rupert Hughes' new Metro-Goldwyn-Mayer production which is showing on Wednesday and Thursday, June 24 and 25, at the Sequoia theatre, is headed by Norma Shearer and Conrad Nagel. Miss Shearer was last seen in "He Who Gets Slapped" and "The Snob," while Mr Nagel has recently appeared in "Married Flirts" and "So This is Marriage."

Renee Adoree has an important role as a French girl who makes considerable trouble for the chief characters of the story. Others in the cast include Walter Hiers, John Boles, Bert Roach, William V. Mong, Edith Yorke and Eugene Cameron

"Excuse Me" is Mr. Hughes' film adaptation of his own stage farce of that name which made such a phenominal success some years ago. Almost the entire picture takes place on a Pullman car of a tran-continental train."

## EAST PALO ALTO

The Ravenswood School closed last week for the summer vacation. Graduation exercises were held Thursday afternoon, 13 graduating. The program was given by the members of the class assisted in the music by the 7th grade. The graduates were Ruth Armstrong, Phyllis Burdett, Gladys Cleland, May Fern De Villiers, Alice Foss, Mildred Hansen, Chas. Houck, Philip Montgomery, Lloyd Parker, James Donald Ronk, Bert Sanders, Mary Sequiera, Ray Stephenson and Ruth Wickstrom. Mrs. Frances Hambleton, principal, will teach at the summer session of the State Teachers' College at Santa Barbara, and all the teachers are to return for next year.

The Community Players old fashioned dance was a success, both socially and financially. Only a small crowd was in attendance at the play, "Who's a Coward?" which preceded it, but a larger crowd came for the dancing and it proved a delightful evening's program. The parts in the play were well taken by Harold McFall, Johanna Vanderlaan and Alfred Gravestock, and added much to the evening' pleasure.

A special meeting of the Dumbarton Grange has been called for next Tuesday evening for initiation in the 1st and 2nd degree and the evening's program for the lecture hour following. The Grange at their meeting Tuesday evening decided to have a 6:30 dinner preceding the meeting of July 7th and invite the Mt. View team to initiate our candidates in the 3rd and 4th degree following the banquet.

Mr. and Mrs. Wm. Van Houck, both teachers in the high school at Twist, Washington, are here to attend the summer session at Stanford and have rented the Olsen cottage on University avenue during their stay.

Mr. and Mrs. Harry Sanders, their son, Bert and daughter Ruth, who have been living on Weeks street for the past year, left Monday for Vacaville, where they will improve their ranch.

Mr. and Mrs. Robt. Hastings and son Robert of Cooley avenue, left Sunday for a motor trip to Los Angeles to visit relatives.

Mr. and Mrs. G. Waschka, parents of Mrs. Wm. Gurr, who are here for the summer, have gone up to Oakland for a short visit.

Mrs. O. D. Brainard left Monday to visit her daughter, Mrs. L. O. Portwood in Los Angeles.

Jack Gurr is able to be home from the hospital, but is still very ill as a result of complications following pneumonia.

Mrs. John Lammiman was taken to the hospital at Beresford last week, following a month's illness.

Mr. and Mrs. Robert Miller have returned home from a three weeks' camping trip to the Yosemite valley, reporting a wonderful trip and stating that the water falls were especially beautiful this year as a result of the many spring rains and the abundance of snow in the mountains late this year.

## WEATHER A PRIME MYSTERY; AFFECTS RADIO AND FOOD

In spite of its popularity as a topic of conversation, there remain a great many things about the weather which science cannot explain. For instance, it is well known to every radio fan that a receiving set will operate splendidly during some kinds of weather; then become as tempermental as an opera star during another kind.

Then there is the case of grandpa's rheumatism. When it comes to changes in atmospheric conditions, grandpa can predict with just about as much accuracy as the weather bureau. It isn't so much the effect of temperature, or the amount of sunshine, or the degree of humidity in the air; but something more subtle than any of those, something that hasn't yet been revealed to the meterologist.

One of the mysteries in connection with the weather which baffled scientists for a great many years was the fact that food spoiled rapidly during sudden temperature changes. Apparently there was no connection between food and the weather, and yet it was observed that perishable foods always spoiled when the thermometer fluctuated. Investigation proved, however, that the weather was only indirectly reponsible. The real cause of spoiled food is bacteria; and these thrive and multiply rapidly when the temperature goes above fifty degrees.

The solution to the spoiled food problem is the well iced refrigerator which not only keeps perishable foodstuffs at an even temperature below the spoiling point but also prevents them from becoming contamined from bacteria floating about in the air.

## TRUSTEES HEAR LENGTHY STREET BUILDING FIGHT

The everlasting fight between the oil men and the cement men which crops up whenever the paving of a street is considered was again brought to the fore at the meeting of the board of trustees last Monday night. The storm center for this new outbreak of a trade war was the proposed paving of certain streets in the southwest corner of town.

A large number of the property owners along the streets in question had presented a petition asking the board to pave the streets using the patented formula of Vibrolithic cement. At Monday's meeting, however, a large number of property owners were present and another petition was presented asking that asphaltic concrete be used. This at once gave an opportunity for the salesmen of the two types of pavement to stage an impromptu debate in which the particular type of pavement of the speaker was lauded and the inferiority of his opponent's enlarged upon.

When the patience of the board had been exhausted by this cross fire of salesmanship, Mayor Beeger stated that the board was not interested in such arguments, and merely wanted to know what was the desire of the majority of the property owners. Trustee McNulty also condemned the practice of the pavement salesmen, who circulate petitions asking for streets work, and lead the property owners to believe that the work has to be done, and that their own particular type of pavement is the cheapest. In this way a large number of property owners on streets where there is little or no traffic, and who will benefit little, if any by the improvement, are lead to sign petitions for street work, which they cannot afford and do not need.

George Alvis, a property owner of Madison street, was present and presented the second petition. This petition asked that the asphaltic concrete instead of the Vibrolithic cement be used. In support of his arguments Alvis produced two letters from engineers of eastern cities where Vibrolithic cement had been used. Both of these letters stated that Vibrolithic cement pavements in these cities had not been satisfactory.

Alvis also stated that whereas the estimated cost of the Vibrolithic cement for a thirty-foot street was $5.50, asphaltic concrete for a forty-foot street would cost only $4 per running foot. He also stated that he considered the asphaltic concrete to be the better type of pavement, and mentioned several streets where similar types of paving had been used.

W. W. Thompson, local road contractor, was also present and spoke in favor of asphaltic concrete, which he said was the type of paving used by the State of California.

Many of the property owners of the district were also present and gave their views of the two types of paving. Wm. Hogan and D. Schiel spoke in favor of the less expensive road and others stated that they did not want any paving at all, but that of the two they would prefer the cheaper type. C. P. Kern spoke in favor of the cement.

The board finally decided to favor the wishes of the majority of the property owners in this matter, although they preferred the cement street.

Other matters taken up by the board included the opening of bids for the new reservoir for Redwood City. For this work nine bids were received, the lowest of which was that of Rocca and Paletti, a bid of $21,200. Other bidders were Charles S. Lindgren, Heispach & Selarrino, C. H. Gray, Grant & Hart, H. C. Pensano & Co., Daly Bros., and C. A. Bruce.

An application for a license to install electrical fixtures was received frof H. A. Kruger. The license was granted.

City Engineer Dimmitt presented plans and specifications for the improvement of Arguello and several streets east of that street. These plans were adopted and resolutions ordering the work done were passed.

Recommendations for the acceptance of two new subdivision maps were received from the Redwood City Planning Commission. One of the maps was for the Edgewood Tract and the other for Fairways, near Emerald Lake. Action on the latter was laid over because the map had not been sent to the board.

The board decided to instruct the city clerk to advertise for bids for a pump for the water works and also for a fence around the pumping plant.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded bp our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. t is little better than ordinary distillate and leaves a sickening gasoline smell in your clothes.

# THIRTY-SEVENTH ANNUAL MEETING OF CALIFORNIA PRESS ASSOCIATION

## Convention Was Held at Lake Tahoe; Governor Richardson and Others Make Interesting Talks

The thirty-seventh annual excursion of the California Press Association left San Francisco on June 6 for the Tavern at Lake Tahoe for an eight-day outing among the whispering pines or on the peaceful bosom of the lake. Time is playing its part in the ranks of the members for on this excursion were missing many of the old guard that went out with the first contingent thirty-seven years ago. The ranks, however are being filled with younger men who have come into the newspaper business during the last decade. They are a jolly bunch, able, snappy and alert on current events and politicians, all of them.

At Sacramento the governor and his entourage came aboard. He was given an ovation as he entered the car. He greeted all kindly.

The wide-awake chamber of commerce of the capital had a bevy of pretty girls on hand to give bouquets to the ladies of the party and to pin a buttonier on the coat lapel of the editors, who smiled graceously upon the charming beauties of Sacramento.

At every stop to Truckee newspapermen joined the party so that when the destination was reached nearly one hundred pen pushers answered roll call. They came from all parts of California, hailing from Siskiyou to San Diego, all bent in having an enjoyable time. At Auburn large qauntities of ripe cherries and peaches were placed aboard by Mr. and Mrs. W. A. Shepard, of the Auburn Herlad, for the edification of the editors.

The trip to Truckee was delightful, enjoyable but uneventful. At this place the tired newspaper men piled out and entrained for the lake. They were met on alighting at the Tavern by C. T. Bliss, owner and manager of the well-known resort, the best on the lake.

The party was soon settled in cosy rooms and were at home.

Lake Tahoe, lying in the crest of the Sierra range, 6225 feet above sea level, between the States of California and Nevada, is a body of the cleanest and most brilliantly tinted water in the world. It is 23 miles long and 13 miles wide. Its depth in places is 1800 feet. Ruged mountains rising thousands of feet above its surface, encircle the lake. Great pines, firs and cedars along its shores add to the charm of this wonderful inland ea. A hunlred smaller glacial lakes abounding in trout, lying between the summit rdiges or crests of the Sierras, constitute a shining girdle of incomparable Tahoe.

Climatic conditions at Tahoe are ideal. The days are warm and balmy and the nights are always cool. Daily average noon temperature is 72 degrees. Average mean relative humidity 58.

Tahoe Tavern built within a grove of scented pines and firs, is located on a low bluff overlooking the broad surface of the lake, and is the terminus of the railroad. Roomy and artistic, it is admirably fitted to the surroundings—a genuinely comfortable place for rest and recreation, where one may breathe the pure mountain air and enjoy all the comforts and conveniences of a first-class hotel. Rooms are steam heated. Western Union telegraph, long distance telephone and express offices are locatde in the Tavern. There is a resident physician.

There is a complete garage service, and the repair shop carries a full stock of supplies. The Tavern has accommodations for four hundred guests and is conducted on the American plan.

Tavern Casino on the lake shore, has broad verandas overlooking the lake and contains assembly and ball rooms, with stage for theatricals and entertainments; bowling alleys, balliard room, lounging rooms, barber shop and photographic studio; also a beauty parlor for the ladies.

The trip around the lake on the steamer Tahoe on Tuesday was a treat to those living in the hot valleys of California. A delightful lunch was served on board. The seventy-three-mile trip was a revelation and a thing to be enjoyed.

By the kindness of the proprietor of Brockaway, a beautiful resort on the lake, a luncheon was enjoyed by the newspapermen on Wednesday. This is the most picturesque spot on the lake with its clear view of the waters. On an elevated dining room overlooking the vast stretches the party ate a tempting lunch fit for the gods. The management of the delightful place was given a vote of thanks for its hospitality. This a section of the lake were fishing is excellent.

At a banquet held that evening in the spacious dinning room of the Tavern Governor F. W. Richardson delivered a striking address to the editors. The governor is not an eloquent speaker, bt he is a ready, forceful and convincing talker. He says a whole lot in a very few words. He told his hearers that he had no political ambition other than to serve the people and make good as chief executive, and to give the tax payer an economical administration. He payed his respects to yellow journalism, declaring that if the safron papers were for him and commended him he would feel that he had done something wrong. He was losing no sleep on account of their criticism of him and warned his friends to pay no attention to their vaporings. The governor said he was a plain man with a simple philosophy and with his limited ability was trying to do all he could to fill his office with credit to himesif and the people. He made no mention about his future aspiration. After the speech he was presented with a huge cake which bore the inscription: "We did in 1922 and will do it again in 1926," which would indicate that Mr. Richardson will again be a candidate for governor next year.

Mrs. Richardson was presented with a costly picture of Lake Tahoe neatly framed. She responded feelingly to the presentation speech made by Mrs. F. D. McPherson of Santa Cruz. Among the other speakers of the evening were Frank F. Merriam of Long Beach. He proved to be a witty talker; H. A. Miller of Covina, C. A. Dunbar, Santa Rosa, J. J. Conrad, Huntington Beach, J. R. Gabbert, F. J. O'Brien and Wade Wilson of Weaverville.

### Planes Need No Pilot

Certain residents of the south coast of England were much astonished recently when an air force flying machine fell into the ocean and the authorities showed no undue anxiety about the fate of the pilot who, it was assumed, was aboard. After a while the air force men calmly put out in a skiff and towed the fallen plane to shore. The secret then leaked out that the machine had been without a pilot and that the accident was brought about by the plane passing beyond the radius of the wireless controlling force.

It was then learned for the first time that the planes seen for many weeks past circling in the air over this territory had all been without pilots; the control was by radio from a shore station.

### Word to the Wise

"I am in debt to the department of street railways to the extent of several hundred dollars," said the north side business man. "I am not usually afflicted with lapses of memory, but when I happened to meet a friend in the bank the other day, I stopped to talk a moment and then went on—leaving behind my bag containing the change I had obtained for Saturday. I boarded a Woodward avenue car and the first thing that caught my eye was the sign at the end of the car where the destination or name of the line usually appears. This said in red letters, 'Stop! Turn Back!'—a notice to the conductor to rewind the linen strip. In a flash came the picture of my bag beneath the desk at the bank. Believe me, I turned back. The bag was there—untouched."—Detroit News.

### Tuna Fishing in Hawaii

The Hawaii Tuna Fishing club of Honolulu offers exceptional facilities to the angler in reaching the famous game-fishing grounds, and under its direction the sport has been brought into national prominence. The world's record for tuna catches was made in Hawaiian waters by Jump of Los Angeles. The Tuna club now has a well-equipped rendezvous at Kihei on the island of Maui, while similar fishing is accessible from Honolulu, Kaleiwa, Hilo, Kailua and Waimea. Among the game fish are the yellow and blue fin tuna, ono, ulua and swordfish.—F. J. Halton in Adventure Magazine.

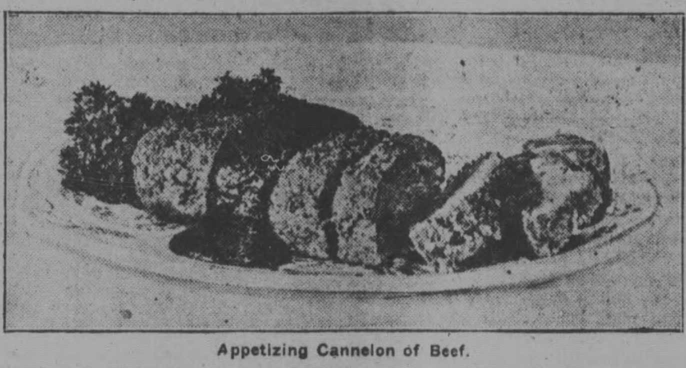
# MAKE SAVORY MEAT ROLLS FOR A CHANGE



Appetizing Cannelon of Beef.

(Prepared by the United States Department of Agriculture.)

Savory meat rolls in great variety are made out of chopped meat, either with or without egg. The variety is secured by the flavoring materials used and by the sauces with which the baked rolls are served. If a few general principles are borne in mind, recipes are unnecessary, and it is possible to utilize whatever may happen to be on hand, suggests the United States Department of Agriculture.

Appetizing rolls are made with beef and pork mixed. The proportion varies from two parts of beef and one of pork to two of pork and one of beef. The rolls are always improved by laying thin slices of salt pork or bacon over them, to keep the surface moistened with fat during the roasting. These slices should be scored on the edge so that they will not curl up in cooking. Bread crumbs or cooked cereal can be added to make the meat go farther. When onions, green peppers, or other vegetables are used, they have a better flavor if they are browned in fat before being put into the roll. Sausage makes a good addition to the roll, or unseasoned pork may be used, with the addition of a little sage.

# REDUCE BILL FOR CHILDREN'S SHOES

## Leather of Good Quality Is Most Economical.

(Prepared by the United States Department of Agriculture.)

Have the children's school shoes carefully fitted, allowing in length for the growth that is almost certain to occur within two or three months. Besides being more comfortable and better for the child's feet, well-fitting shoes look better and wear longer, says the United States Department of Agriculture. Shoes of good leather are more economical in the long run than those of poor quality; sometimes they will outwear several pairs of inferior grade, and may stand resoling three or even four times. Small rips should be attended to at once. Often the rips can be sewed at home. Brass nails in the heels make less noise in walking than iron ones. Rubber heels prevent jarring in walking and are comfortable, and for some persons they seem to wear longer than leather heels. Run-down heels should never be worn; they spoil the shape of the whole shoe.

If two pairs of shoes are kept in use and worn on alternate days, both pairs will last longer. If is difficult to get boys to take proper care of shoes, and especially to keep them dry. If a boy can be made to realize that getting his shoes wet spoils their appearance, rots the thread, and makes them soon wear out, he will be more likely to take better care of them. If his shoes get wet he should know that they must be very slowly and carefully dried, because wet leather burns easily and when dried too rapidly is harsh, stiff and readily cracked. Shoe-trees or paper stuffings should be used when drying wet shoes.

The use of suitable oil or grease greatly increases the endurance of shoe leather by making it more water resistant. Among the best materials for this purpose are neat's-foot, cod, and castor oils, tallow, and wool grease, or mixtures of them. Cylinder oil and vaseline or petroleum also are good, but are improved by being mixed with animal oils or greases. Castor oil is probably the most satisfactory for shoes that are to be polished. The application of oil or grease to light-colored and russet leather darkens it.

Why not keep a shoe record? suggests the new bureau of home economics. An account of the number of days' wear will show which type is the best to buy and that good care pays.

### Care of Kitchen Utensils

The United States Department of Agriculture makes the following suggestions on the care of kitchen utensils:

Proper care and storage of utensils mean longer and better service. Scraping and scouring scratch metal and chip glaze. If food is burned or stuck on, soak or boil in a solution of washing soda unless the dish is aluminum. Wipe off soot and grease with soft paper. Wash utensils in hot, soapy water, rinse in hot and dry thoroughly. Exceptions are gears and bearings in egg beaters, ice cream freezers and other mechanical utensils which should be wiped clean rather than put into water and should have a drop of oil occasionally. Cooking dishes, pitchers, milk bottles, and jars are best cleaned with suitable brushes or mops. Store utensils by hanging or putting on convenient, accessible, and well-spaced shelves near where they are to be used. Keep them where it is light and airy, not in dark, unventilated cupboards.

### Bacon Sandwiches for School

In many families the school children, and often older members of the household, carry sandwiches. Bacon can be put in these sandwiches, either by itself or in combination with other meat, lettuce and salad dressing, suggests the United States Department of Agriculture. When time is short, plain bacon sandwiches consisting of bread and two or three slices of crisp cooked bacon can be put together in a very few minutes.

Sliced onion or pickle in a bacon sandwich gives an acceptable flavor.

### Tigress Ready to Fight Against Odds for Cubs

According to an authority on big game, a tigress is an excellent mother. He says:

I once saw a tigress with two small cubs, about the size of fox hounds, come out of some heavy bush cover, which was being beaten by three or four elephants. The two cubs trotted on ahead, and in order to cover their retreat, the tigress twice charged the line of elephants, roaring loudly.

The cubs would probably have died if I had shot the mother, so I let her go. I thought she deserved this for her bravery.

There were not many tigers about in this particular neighborhood, but strictly speaking it was probably most improper to spare her life, as game was scarce in that locality and this tigress would therefore have probably educated her cubs in the art of cattle killing. A tigress with growing cubs is far more destructive than a tiger or tigress alone, or as a pair.

The tiger cub at birth is very small—in fact, not much bigger than a large rat. Three or four cubs is the usual number, but as a rule only two of a litter grow up. I have once seen four almost full-grown cubs and the tigress all together. The cubs stay with the mother until they are nearly full grown. I have shot them in company with their mother when the male cubs measured eight feet four inches in length, and the females about seven feet six inches. The average length of a full-grown male tiger is about nine feet six inches and of the female, about one foot less. A tiger over ten feet is an exceptionally large one. Ten feet four inches was the length of the biggest I ever shot, and the largest tigress I ever saw was nine feet two inches.

Ordinarily a tiger will kill only sufficient animals for his own needs, and, assuming that his kills are not removed by the natives or devoured by vultures, two kills weekly are quite enough for him. A big male tiger is quite a noble-looking animal.

### Skunks and Their Habits

W. Kenneth Cuyler, of the zoology department of the University of Texas, having completely lost his sense of smell, has taken advantage of this unusual condition and hunted and studied skunks for many years. He finds they are easily tamed and make fine mousers. Besides mice, they eat all sorts of things, from roots, berries and insects to birds and eggs, and sometimes rival the possum in their ability to rob the chicken roost. The musk which efficiently defends the skunk from most people is manufactured by two egg-shaped glands with contractile walls which can force out jets in any direction, even directly over the head of the skunk. These jets break up into a fine spray and can reach an object as distant as 20 feet. Mr. Cuyler says skunks are usually loath to waste their musk and therefore do not discharge it promiscuously, but only when cornered and irritated. For removing skunk odor, Mr. Cuyler suggests washing in gasoline or ammonia water, or in water containing a few drops of carbolic acid and oil of wintergreen. A much more effective method, which he regularly uses, is to hold face and hands or clothing for a few minutes in the thick, heavy smoke produced by placing green juniper branches on a good fire.

# NEWS OF MENLO PARK

Miss Florence Gilbert, the pretty school-teacher, is erecting a neat cottage on her property in Stanford Park. The building will be for sale when completed. Miss Gilbert and Miss Coffeny, both teachers in the Lawrence school at San Mateo, will leave on an automobile trip to Washington shortly. Miss Gilbert will be at the wheel. The teachers will be in the north for a month.

David Stafford, son of Dr. David Stafford of San Francisco, after spending six weeks with his aunt, Mrs. J. J. Murray, has returned to the city.

Stephen Gilbert of Menlo Park has gone to Del Monte for the summer months. He departed last Sunday.

The picturesque home of the late Mulcahy, situated on an eminence near the Bear Gulch lake, and one of the show places of the county, was rented this week by Mr. and Mrs. William M. Stevenson of San Francisco. They may buy the property.

Local real estate men report sales of realty this week in Menlo Park which demonstrates that people want to come here to live and enjoy the good climate. Prices are advancing rapidly. Now is the time to get in on the ground floor before prices begin to airplane.

Mr. and Mrs. Herman Phleger, nee Macondray, have taken a house at Palo Alto for the summer. Mr. Phleger is an attorney connected with the firm of Dunn, Brobeck & Phleger. His wife was born in Menlo Park and raised at Atherton.

Mr. and Mrs. H. A. Lewis observed their 10th wedding anniversary Wednesday at their home on Chestnut street, Menlo Park. Dinner was served to a group of intimate friends, after which games and a radio program were enjoyed. Those present included Mr. and Mrs. George Loone, Mr. and Mrs. Frank Burges, Mr. and Mrs. Karl Rosenfield, Mr. and Mrs. Chris Hansen, Mr. and Mrs. William Loone and daughter; Fred Callisen and John Orton.

John J. McHugh won the Menlo Country Club's 1925 trophy when he defeated John Levinson in a 36-hole match this week in the finals, 5 and 4. On the 17th hole, Levinson had to make a 6-inch putt with one stroke to win, but McHugh came through and shot his approach with a half.

Mr. and Mrs. Lorin Tryon of San Francisco have bought the F. B. Henderson place at Menlo Park. The Hendersons plan to move into Palo Alto.

Active work has begun on the new bank building which is being rushed to an early completion. It will be an ornament to Menlo Park. The Mercantile Trust Company hope to do a flourishing business. The owners have faith in the community and know it will grow and become one of the progressive and prosperous places on the peninsula.

Rev. Francis J. Rock, who graduated from St. Patrick's Seminary two years ago, arrived here during the week from the Washington University, where he was sent after graduation to take an advanced course. Father Rock will be assigned to St. Joseph's College to teach, almost in the shadows of the old Rock home in Mountain View. Father Rock is a nephew of the late Mrs. James G. Mason, and while attending the seminary often visited his aunt and he became quite well known in Menlo Park. His father and mother reside in San Francisco. He is the only child of the couple.

Edward Reiter and family, who have occupied the Inman mission on Oak Grove avenue for the past three years, have temporarily moved to Santa Cruz, later going to San Jose to live permanently. It is likely Mr. and Mrs. Reiter will make a world tour this year, placing their two children in a boarding school during their absence. The Reiters have made numerous friends while here and their departure is a matter of deep regret.

Among the list of young ladies graduating from St. Joseph's hospital June 30th as trained nurses, appears the name of Miss Catherine Mercedes Murray of Menlo Park.

Senator Shortridge returned home during the week from a tour of the southern part of the state on business connected with the government. The writer returned from a trip with the California Press Assiciation at Lake Tahoe Saturday and found the press of the state in favor of the reelection of Senator Shortridge. All the editors are in accord with his views as expressed by him in the senate and for his devotion to the administration. Many editors believe that Mr. Shortridge will have no serious opposition next year when the campaigns opens. He shouldn't have.

John Shortridge, young son of Senator and Mrs. S. M. Shortridge, graduated with honors from Sequoia Union High School last evening. The young man will enter Stanford next semester to prepare for the legal profession, in which his distinguished father became so eminent

G. Fred Clark, some years ago principal of the Menlo Park grammar school visited friends here during the week. He is well remembered in Menlo Park. He came from Half-moon Bay and made good. Mr. Clark is now a representative of the New York Life Insurance Company and lives in Oakland to which place he went to teach in the school department there a number of years ago, and where he has since resided.

The sudden death of little Jane Schwabacher at her home at Atherton has caused profound sorrow in her family circle and among her wide range of friends. She was only sick one day with the black flu when she succumbed. The little girl was just five and a half years old. She was much interested in the circus that is to take place today and looked forward to having an enjoyable time with her playmates who will take part in the affair. Her devoted parents, who are heartbroken over the child's demise, have the sympathy of the community in their sad bereavement.

Mr. and Mr. A. J. Carleton hold the record for the number of their children graduating from Sequoia High School, six of the family having been given their sheep skins by that institution. Miss Mary Carleton graduated last evening and she was the sixth child and the last one to graduate. This is a record to be proud of.

St. Joseph's Parochial school closed for the summer vacation last week with appropriate exercises. The graduates were Edward O'Keefe, Joseph McCarthy, Warren Morey, Frank Dunphy, Leo Gilcrest, Farrell Buckley, William Wilson, R. Bourett, P. Bourett, Mary Roach, Mary Maloney, Mary Pozani, Rose Castagleno, Agnes Sullivan, Catherine Kearney and Margaret Gagan.

A class of fifteen young men of St. Patrick's Seminary will be elevated to the priesthood in St. Mary's Cathedral this morning. This is the largest class ordained from the institution. Mr. Perkins of St. Paul and J. McLaughlin of Rochester, N. Y., and a son of J. P. McLaughlin, internal revenue collector of San Francisco, will also be ordained for this diocese.

Thurday evening the grammar school closed with attractive exercises for the summer vacation. After a short talk by the principal, Mrs. Bowers, the diplomas were delivered to the graduates in a neat speech by Professor Gill of the Redwood City High School. Out of the class of twenty-one all but two will attend the high school. On Tuesday the graduating class and teachers were given a banquet by the mothers of the children in the auditorium of the school, during which a costly chair was presented to Prncial Bowers, the presentation speech having been made by Baxter Brown. The graduates are as follows: Helen Aabel, Jennie Jacobsen, Pearl Allen, Myra Kurtz, Gladys Anderson, Bailey Landis, Baxter Brown, Ruth Landis, Emile Campagne, Sidney Miller, Edward Chew, Wong Chuck, Marie Moore, Vernon Moore, John Feeley, Marie Orlandi, Richard Harrington, Helen Jacobson, Gim Wong, Tome Yamasai, Carol Rogers.

The petition for incorporation will likely be finally acted upon by the board of supervisors on Monday next. A committee was appointed by John MacBain during the week consisting of W. J. Murray, D. E. O'Keefe, P. Kearney, M. A. McCann, Mr. Garland and Mr. Harcom to confer with the few property owners in the eastern portion of the territory included in the proposed boundary line of the incorporation, in order to arrive at some definite agreement. When this is ironed out the petition may be granted. The committee will meet this afternoon.

### One of War's Martyrs

Freed from living death, Trooper T. W. Rolfe, known the world over as "The Man in the Bath," has died at Randwick Military hospital, Sydney, Australia. Rolfe was literally flayed alive by German poison gas. His was a case unique in medical history, for he was condemned to pass the rest of his days at Randwick in a bath of tepid water, constantly circulating to keep off surface poisons. "Well, anyway, a bloke can't get much worse," was his smiling comment to the visitors he loved to see. Rolfe became a world figure of sympathy through the publicity his case received, and he had correspondents in Alaska, North China, North and South Africa, Scotland, and various parts of the United States.

### Sues an Entire Village

Count Friedrich Szechenyi, a Hungarian aristocrat, is bringing legal action against the entire village of Peterhida in southwestern Hungary. Szechenyi leased a piece of land to the villagers for a rental of one-quarter of a carload of grain a year. The village neglected to pay and the count is bringing suit. He has had the legal forms run off on a duplicating machine and will serve each villager. The case will be heard in Nagyatad, the nearest county seat, and the entire population of Peterhida will have to appear.

## WOODSIDE

Covington Pringle and family will leave on July 1st for a month's vacation at Salmon Lake in northeastern California. They will take the river boat to Sacramento and will drive from there by way of Auburn and the Feather River canyon and over the American grade to this lake of the woods that is not as yet upon the travel line of the conventional automobile tourist.

Mr. and Mrs. N. A. Andreen will be leaving soon for a trip to the Yosemite.

Bradford Leavitt and family will arrive at their home here for the summer on June 23.

Mrs. Ruby Ralston is spending the week end with Mrs. Albert Meyer.

The boys from the local school defeated the Menlo Park School team at baseball at Redwood City on the school play-day May 15th and held a pretty good opinion of themselves in consequence. But the edge of their skill had rusted somewhat and at a return game held Tuesday afternoon at the Menlo School grounds they were defeated by a score of 4 to 0. The particular star of the occasion, however, was Tom Shine, who is a real baseball player. Tom goes to high school next year and his friends here expect him to find a place on the high school team.

The closing exercises for the school and the graduating exercises for the Eighth Grade were held at the school on Friday. Music and recitations by members of the school preceded the presentation of diplomas to the graduates and athletic awards to victors of contests during the year. Those receiving diplomas were Frederic Blackington, Thomas Shine, Norman Macdonald, Kenneth Barteaux, Oliver Gish, Emmett O'Neill, Carl Silva, Mildred Langley and Kathleen Gish. All of these graduates expect to enter the Sequoia Union High School the coming semester.

A group of Camp-fire girls spending their vacation at Searsville Lake tramped five miles to attend Sunday School and church services at the local church last Sunday. A little hike of five miles appeared as nothing more than a 'daily dozen' to these exponents of an out-door life.

The annual picnic of the Sunday School will be held on June.... About eighty children are expected.

There has been some changing of cars among our residents this week. James Newman has laid aside his Reo for a new Packard and O. E. Blackington has thrown his Chevrolet into the discard in favor of a six cylinder Buick. Which, we think, marks progress.

### Individual Races Seldom Wiped Out by Enemies

The latest census of the Indians in the United States shows they are doing far better than holding their own. There is sound reason for believing there are more than twice as many of the aborigines living than were in existence when the whites began to descend upon the continent.

A government publication put out by the Union of South Africa makes the statement that the white population there is not maintaining its ratio with the increase of the negroes. Failing additions from abroad, says this paper, the prospect of keeping a white civilization in South Africa must fade. The whites may even be forced to abandon the country altogether.

History makes it clear that conquered peoples are seldom really conquered. If they have been in a region a long time they have become far more fitted to the environment than the newcomers. They reproduce faster, as a rule, and suffer less from local diseases. They stick close to their original homes, whereas invaders are often restless and given to moving on. The Saxon type in Britain is said to be a disappearing type before the dark-haired stock that first peopled the islands. The northern barbarians who conquered Italy and Spain have been submerged by the Latin races. Rumanians think of themselves as Latin because that country was a Roman outpost, but the Rumanian stock is a Slav stock now.

The Indians, few as they are in comparison with other races, may possibly outlive several of the elements of our present population. Their big chance would come when some violent disturbance forced a struggle for survival with nature in the raw and rough.

### Greatest Grain Ports

Duluth, in Minnesota, and Superior, in Wisconsin, which lie 1,500 miles inland, are practically ocean ports for the shipment of wheat in unbroken bulk to Liverpool, 5,000 miles distant, by reason of the Welland and Erie canals. Both cities are in connection with New York by water for the unbroken shipment of barges containing the equivalent of 75 freight cars.

Situated at the very gateway to the rich wheat country of the Northwest, Duluth and Superior have seen the shipment of grain increase by leaps and bounds. The first shipment from Superior was one of 49,000 bushels in 1870. Since that shipment 16 elevators, having a storage capacity of more than 18,000,000 bushels, have been built on the water front of this one city. The Great Northern elevator system alone possesses a storage capacity of almost 8,000,000 bushels. A single plant of this system handles 6,000,000 bushels and can receive, clean and reship 400 cars in a working day of 10 hours. To completely fill all of Superior's elevators once the equivalent of 600 trainloads of wheat is required. When the first grain shipment was made from Superior a boat carrying 1,000 tons was a large vessel. Today boats plying to that port carry 14,000 tons.

### Radio for Insomnia

Sir Bruce Bruce-Porter, chief surgeon of the Third London General hospital, is already known as an enthusiast on the use of radio for the treatment of patients' mental troubles.

He is quoted recently as saying that not only were patients in the hospital aided appreciably in getting to a state of normal health by the music brought in by radio sets, but also, together with Sir Henry Hadow, that many cases of insomnia and of highly nervous condition had been calmed and eased by the use of radio.

He maintains that radio in the hospitals would be one of the most practical advances that the medical science today could take, according to press reports.

### Soup or Coffee?

Officials of a New York broadcast studio sent this story to editors: During the broadcast of a hotel orchestra, a waiter dropped a loaded tray. The next day the station received a special delivery letter containing the following earnest query:

"Was it soup or coffee that splashed when the tray was dropped? We stand two to one in my family that it was a distinctive coffee splash, with only my wife holding out for soup."—Collier's Weekly.

### Siphon Water to Capital

An automobile could be driven through the world's largest siphon, which is nearing completion on the outskirts of Washington, says Popular Science Monthly. It is to be used for the Great Fall conduit which will supply water to the national capital, and is expected to be ready for operation in May. This single siphon is sufficient in a stretch of 29 miles of piping, to give the water momentum enough to reach its destination.

### Bank on Shipboard

Among conveniences for the comfort of passengers on board the ocean liner Leviathan, one of the latest is a branch bank. This bank has been established by an eastern trust company. About 4,000 persons use the bank each trip. The cashing of checks, the changing of money from one country into the currency of another, issuing of letters of credit, the paying of money on wireless orders, these are some of the chief activities of this seagoing bank. In addition to this the bank issues bulletins of stock quotations day by day, as they are received by radio.—Boston Post.

### RESOLUTION OF INTENTION No. H-10

RESOLVED, that it is the intention of the Board of Trustees of the Town of Redwood City, County of San Mateo, State of California, to order the following work to be done and improvements to be made in said Town of Redwood City, to-wit:

That Brewster avenue from the northeasterly line of Allerton street to the northerly line of the Pulgas Ranch; also Alden street from the northeasterly line of Allerton street to the northerly line of the Pulgas Ranch; also Samson street from the southwesterly line of Warren street to the northerly line of the Pulgas Ranch; also Hopkins avenue from the northeasterly line of Arguello street to the northerly line of the Pulgas Ranch, also Standish street from the northeasterly line of Arguello street to the northerly line of the Pulgas Ranch; also Howland street from the northeasterly line of Arguello street to the northerly line of the Pulgas Ranch; also Eaton street from the northwesterly line of Fuller street to the northerly line of the Pulgas Ranch; also Allerton street from the northwesterly line of Alden street to the southeasterly line of Rogers street; and also Warren street from the northwesterly line of Alden street to the southeasterly line of Rogers street, including all street and avenue intersections and terminations and portions thereof included within the lines of the several streets and avenues above described be improved as follows, to-wit:

That the roadways of said streets and avenues and portions thereof above described be graded, and paved with a four (4) inch asphaltic concrete pavement upon a three (3) inch base or cushion of broken stone. There is excepted from the above described work all that portion thereof fronting the Park bounded by Howland street, Allerton street, Standish street and Warren street and being one half the width of the roadways of the streets above named bounding said Park; there is also excepted from the above described work a strip eighteen (18) inches in width immediately adjacent to the curb lines on both sides of all the hereinbefore mentioned and described streets and avenues that are to be paved, said strips being reserved for cement concrete gutters.

That the following curb returns now in place at the following corners be removed, to-wit: Northwest corner of Standish street and Warren street; southwest corner of Standish street and Warren street; southwest corner of Hopkins avenue and Warren street; northwest corner of Samson street and Warren street; northwest corner of Alden street and warren street; northeast corner of Alden street and Warren street; northeast corner of Alden street and Allerton street; southeast corner of Alden street and Allerton street.

That hydraulic cement concrete combination curb and gutters be constructed on both sides of the hereinbefore mentioned and described streets and avenues that are to be paved, the curb portion of combination curb and gutter to be six (6) inches across the top and eleven (11) inches deep and the gutter portion of said combination curb and gutter to be eighteen (18) inches wide and to be six (6) inches thick next to the pavement and five (5) inches thick next to the curb. And said combination curb and gutter shall be made and constructed at one time so that there shall be no joint between the curb and gutter. There is excepted from said curb and gutter the portion fronting the Park bounded by Howland street, Allerton street, Standish street and Warren street and adjacent to the curb line around said Park. There is also excepted from the foregoing described combination curb and gutter all that portion on both sides of Howland street between the northeasterly line of Arguello street and the southwesterly line of Warren street; on both sides of Standish street between the northeasterly line of Arguello street and the southwesterly line of Warren street; on the southeasterly side of Hopkins avenue from the northeasterly line of Arguello street to the southwesterly line of Warren street; and on the northwesterly side of Hopkins avenue from the northeasterly line of Arguello street to a point 200 feet northeasterly therefrom; on the northeasterly side of Eaton street from the northwesterly line of Fuller street to Brewster avenue including the southeast corner of Eaton street and Brewster avenue, and the northwesterly side of Brewster avenue from the northeasterly line of Allerton street to a point 100 feet northeasterly therefrom, curbs being now in place at said places. That hyraulic cement concrete gutters be constructed immediately adjacent to all the curbs now in place as lastly herein described upon Howland street, Standish street, Hopkins avenue, Eaton street, Brewster avenue and upon the southeast corner of Eaton street and Brewster avenue, said gutters to be eighteen (18) inches wide and to be six (6) inches thick next to the pavement and six (6) inches thick next to the curb.

Said cement concrete combination curb and gutter shall also be constructed upon the corners of intersecting and terminating streets and avenues within the lines of the streets and avenues hereinbefore described to be paved. Said cement concrete combination curb and gutter shall also be constructed outside the lines of the street and avenues hereinbefore described to be paved at the following corners, to-wit: Northwest corner of Alden and Warren; northeast corner of Alden and Warren; northwest corner of Alden and Allerton; northeast corner of Alden and Allerton; southeast corner of Alden and Allerton. There is excepted from the foregoing curb and gutter on corners the four corners of the Park, bounded by Howland street, Allerton street, Standish street and Warren street,

The Pulgas Ranch line referred to herein is shown on the Map of the Pulgas Ranch, filed in the office of the County Recorder of the County of San Mateo, State of California, on the 30th day of December, 1857, and recorded in Book 1 of Patents at page 11.

The width of the streets and avenues and portions thereof above described and of the roadways of said streets and avenues and portions thereof, and the width of the sidewalks of said streets and avenues are to be and are shown on the plans, profiles and specifications hereinafter particularly referred to herein.

That the official elevations for street grades of said streets and avenues and portions thereof, crown grades, curb grades and grade elevations for top of gutters, be changed and grades different from those established or adopted prior to the adoption by the Board of Trustees of the Town of Redwood City of the plans, profiles and specifications hereinafter referred to herein, shall be adopted, and such official and different and prior grades shall be modified, and are hereby modified and changed so that the official grades shall be and conform to the grades as shown on the plans, profiles and specifications for said work and improvements, which plans, profiles and specifications were heretofore adopted by the Board of Trustees of said Town on the 15th day of June, 1925, by "RESOLUTION ADOPTING PLANS AND SPECIFICATIONS NO. H-10", which plans, profiles and specifications are now on file in the office of the Clerk of said Town of Redwood City. All the work and improvements herein described, shall be done and made to such new official grades as shown on the plans, profiles and specifications hereinbefore mentioned, to which plans, profiles and specifications reference is hereby made for a description of the grades at which said work is to be done and made, and the same are made a part hereof.

And all the aforementioned work and improvements are to be done and made in accordance with the said plans, profiles and specifications hereinbefore mentioned, which plans, profiles and specifications are now on file in the office of the Clerk of the Town of Redwood City, and to which plans, profiles and specifications reference is hereby made for an accurate, detailed and complete description of said work and improvements, and the same are made a part of this Resolution of Intention.

And said Board of Trustees does hereby determine and declare that the foregoing described work and improvements are of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described, which said district is hereby declared to be the district benefitted by said work and improvements and to have the exterior boundaries hereinafter described as the boundaries thereof; that therefore the entire costs and expenses of said work and improvements shall be and are hereby made chargeable against and shall be assessed upon said lands and district, which district is within the limits of the Town of Redwood City, County of San Mateo, State of California, and the exterior boundaries thereof are particularly described as follows, to-wit:
